

# Intel Questioning vs. Learning Focused Questioning

As I read through my Intel textbook, I notice that they talk about essential questions, unit questions, and content questions. How does this relate to what we have learned about Essential Questions in Learning Focused Trainings?

The chart below will help you determine the types of questioning that should be in each category based on Learning Focused Strategies. The concept of Essential Questions are the same in both instances, they just have different names.

Intel Terminology	Learning Focused Strategies Terminology
<b>Essential Question:</b> A broad, overarching question that can bridge over an entire unit or subject area	<b>Unit Essential Question</b>
<b>Unit Question:</b> Guiding questions for the lessons in your unit	<b>Lesson Essential Question</b>
<b>Content Questions:</b> Content area or definitional questions	Questions that you may put on a test or use in classroom instruction (informational, vocabulary, etc.)
